To Whom It May Concern:

Re: Letter of reference

T R Freeman has been working as a sub contractor installing the Kalzip roofing system, fascias and soffits on the Nottingham Emmanuel School project.

The general workmanship has been good and although we have had a few issues relating to safety they have been dealt proactively and in a very timely manner, with positive results.

Their approach to working with us has been very much part of the team and I would have no concerns in recommending them to other contractors or using them on future projects.

Yours sincerely,

Tracie Powell
Project Leader,

c.c Marc Hall - LOR
